```
<LinearLayout
    android:layout_width="match_parent"
    android:layout_height="wrap_content"
    android:padding="20dp"
    android:orientation="horizontal">
    <TextView
        android:id="@+id/txtDate"
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:layout_weight="1"
        android:textSize="25sp"
        android:layout_gravity="center"
        android:paddingStart="25dp"
        android:text="02/09/2022" />
    < ImageButton
        android:id="@+id/btnDate"
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:background="@color/white"
        android:layout_marginRight="25dp"
        app:srcCompat="@drawable/date" />
</LinearLayout>
```

```
<LinearLayout
    android:layout_width="match_parent"
    android:layout_height="wrap_content"
    android:orientation="horizontal">
    <TextView
        android:id="@+id/txtTime"
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:layout_weight="1"
        android:textSize="25sp"
        android:layout_gravity="center"
        android:textColor="#20f"
        android:paddingStart="45dp"
        android:text="21:15" />
    <ImageButton</pre>
        android:id="@+id/btnTime"
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:background="@color/white"
        android:layout_marginRight="45dp"
        app:srcCompat="@drawable/time" />
```

TimePicker

2. Code MainActivity.kt :

```
class MainActivity : AppCompatActivity() {
   //xem lại bài 17 phần android cơ bản http://kotlin.tuhoc.cc
   val today = Calendar.getInstance()
    override fun onCreate(savedInstanceState: Bundle?) {
        super.onCreate(savedInstanceState)
        setContentView(R.layout.activity_main)
        //1. set lai thời gian khi click vào button time
        val startHour = today.get(Calendar.HOUR_OF_DAY)
        val startMinute = today.get(Calendar.MINUTE)
        btnTime.setOnClickListener { it: View!
            TimePickerDialog(context: this, TimePickerDialog.OnTimeSetListener { timePicker, i, i2 ->
                txtTime.setText("$i:$i2")
            }, startHour, startMinute, is24HourView: true).show()
```

DatePicker

■ 2. Code MainActivity.kt :
