ImageView

```
class MainActivity : AppCompatActivity() {
    override fun onCreate(savedInstanceState: Bundle?) {
        super.onCreate(savedInstanceState)
        setContentView(R.layout.activity_main)

        //ad Events
        addEvents()
}
```

```
private fun addEvents() {
   radPic1.setOnCheckedChangeListener{
           _, isChecked -> //
       if (isChecked) {
           imgHinh.setImageResource(R.drawable.pic1)
   radPic2.setOnCheckedChangeListener { _, isChecked ->
       if (isChecked) {
           imgHinh.setImageResource(R.drawable.pic2)
   btnExit.setOnClickListener{ it: View!
       finish()
```
